Add Package

Add Package atau menambah paket fungsinya pada menu ini anda dapat membuat paket shared hosting untuk pelanggan anda.

Misalnya seperti paket hosting yang anda temukan disini

<https://pusathosting.com/standard-hosting-murah>

Contoh :

- 1. Space : 350MB
- 2. Bandwidth : unlimited
- 3. Email : 10 alamat

semua bisa anda definisikan melalui add package, coba perhatikan gambar dibawah ini.

The screenshot shows the DirectAdmin interface for configuring a user package named 'newpackage'. The interface includes a navigation bar with icons for Home, Webmail, Password, Help, Files, and Logout. A sidebar on the right shows the user's access level (Reseller Level) and account usage statistics. The main content area is a form for configuring package settings, including bandwidth, disk space, inodes, domains, sub-domains, email accounts, and various access options. A red circle highlights the 'Skin' dropdown menu, which is currently set to 'enhanced'. The package name 'newpackage' is entered in the 'Package Name' field at the bottom.

Package Name:

Beberapa hal penting antara lain :

- 1. **System Info** - artinya pelanggan hosting anda akan dapat melihat spesifikasi server anda.

2. **Suspend at limit** - ini artinya apabila akun pelanggan atau user anda nantinya melebihi paket yang sudah anda tentukan maka akun akan otomatis tersuspend

Manage User Packages

Menu manage user packages berfungsi untuk mengelola paket hosting yang telah anda ciptakan sebelumnya. Perhatikan gambar berikut ini

The screenshot shows the DirectAdmin interface for managing user packages. The main content area is titled "Manage User Packages" and features a table with the following data:

Package	Bandwidth	Disk Usage	Select
default	unlimited	1000	<input type="checkbox"/>

A red circle highlights the "Package" column header with the text "klik nama paket untuk merubah spek". Below the table is a "Delete Selected" button. The right sidebar shows account information, including "Access Level" (Admin Level, Reseller Level, User Level) and "Your Account" details (Disk Space, Bandwidth, E-Mails, Ftp Accounts, Databases, Domains, Users).

Untuk merubah paket anda cukup klik pada nama paketnya sedangkan untuk menghapus paket anda bisa lakukan dengan klik dibagian sebelah kanan nama paket dan klik delete.

Add New User

Menu **Add New User** berfungsi untuk menambah user baru dan agar bisa menambah user baru anda harus membuat paket hosting (add new package) seperti panduan diatas.
