# Cat Grep Get Part of String

Cat dan grep mendapatkan sebagian dari string

Contoh string

```
2022-03-11 14:08:08 1nSZNf-0007Dn-So <= ardi@xxxdg.co.id
H=xxx2.srv.mailku.net (smtp.mailku.net) [xxx.xxx.248.152] P=esmtpa
A=plain:ardi@xxxx.co.id S=19395 id=202203111408057154306@xxxxg.co.id T="NPE
1X40" from <ardi@xxxxxx.co.id> for firman@xxxx.co.id
```

Kita ingin mendapatkan string dari **from** dan **for** sampai akhir

maka kita bisa gunakan

```
cat file | grep -i -o 'from.*for.*'
```
