Bash : Menampilkan / Mencari File Terbaru diupdate

Bagaimana cara mencari file terbaru di ubah atau diupdate di linux

```
ls -lht /home/user/domains/domain.com/public_html/* | head -5
```

hasilnya

```
/home/user/domains/domain.com/public_html/wp-config.php  
/home/user/domains/domain.com/public_html/wp-config-sample.php  
/home/user/domains/domain.com/public_html/wp-settings.php
```

atau bisa juga

```
ls -lht /home/user/domains/domain.com/public_html/* | head -5
```

hasilnya

```
-rw-r--r--  1 karyamu3 karyamu3 3.2K Jan 23 16:49  
/home/user/domains/domain.com/public_html/wp-config.php  
-rw-r--r--  1 karyamu3 karyamu3 3.0K Nov 16 06:17  
/home/user/domains/domain.com/public_html/wp-config-sample.php  
-rw-r--r--  1 karyamu3 karyamu3  26K Oct 11 02:35  
/home/user/domains/domain.com/public_html/wp-settings.php
```

Selamat mencoba
