Install VNC di Almalinux 9 1

Install VNC di Almalinux 9

Berikut ini adalah tutorial install tiger vnc remote desktop di almalinux 9.

```
dnf -y install tigervnc-server
```

Firewall

```
firewall-cmd --add-service=vnc-server  
firewall-cmd --runtime-to-permanent
```

kita menggunakan CSF maka cukup kita buka port misalnya 5900 s/d 5910

```
nano vncsession.te
```

isi dengan

```
module vncsession 1.0;  
  
require {  
    type default_t;  
    type xdm_home_t;  
    type vnc_session_t;  
    class dir { add_name create write };  
    class file { create open write };  
}  
  
#===== vnc_session_t =====  
allow vnc_session_t default_t:dir { add_name write };  
allow vnc_session_t default_t:file { create open write };  
allow vnc_session_t xdm_home_t:dir create;
```

jalankan

```
checkmodule -m -M -o vncsession.mod vncsession.te  
semodule_package --outfile vncsession.pp --module vncsession.mod  
semodule -i vncsession.pp
```

Setting vnc password

```
vncpasswd
```

akan keluar seperti ini

```
Password:  
Verify:  
Would you like to enter a view-only password (y/n)? n
```

edit config

```
nano ~/.vnc/config
```

isi dengan

```
# create new
# session=(display manager you use)
# securitytypes=(security options)
# geometry=(screen resolution)

session=gnome
securitytypes=vncauth,tlsvnc
geometry=800x600
```

Edit user

```
nano /etc/tigervnc/vncserver.users
```

isi dengan

```
# add to the end
# specify [(display number)=(username)] as comments
# display number 1 listens port 5901
# display number n + 5900 = listening port

#
# This file assigns users to specific VNC display numbers.
# The syntax is <display>=<username>. E.g.:
#
# :2=andrew
# :3=lisa
:1=alma
:2=redhat
```

Menjalankan

```
systemctl enable --now vncserver@:1 vncserver@:2
```

anda bisa menjalankan salah satunya seperti ini

```
systemctl enable --now vncserver@:1
```

melihat status

```
service vncserver@:1 status
```

selesai, itulah tutorial remote desktop dengan Tiger VNC di almalinux 9
